CHINOOK MUSIC STORE

Table of Contents

Overview

Welcome to the **Chinook Music Store** repository. This project is a **database-driven CRUD application** built to manage an online/digital music store. The Chinook database delivers a rich dataset and structure around which this project is built.
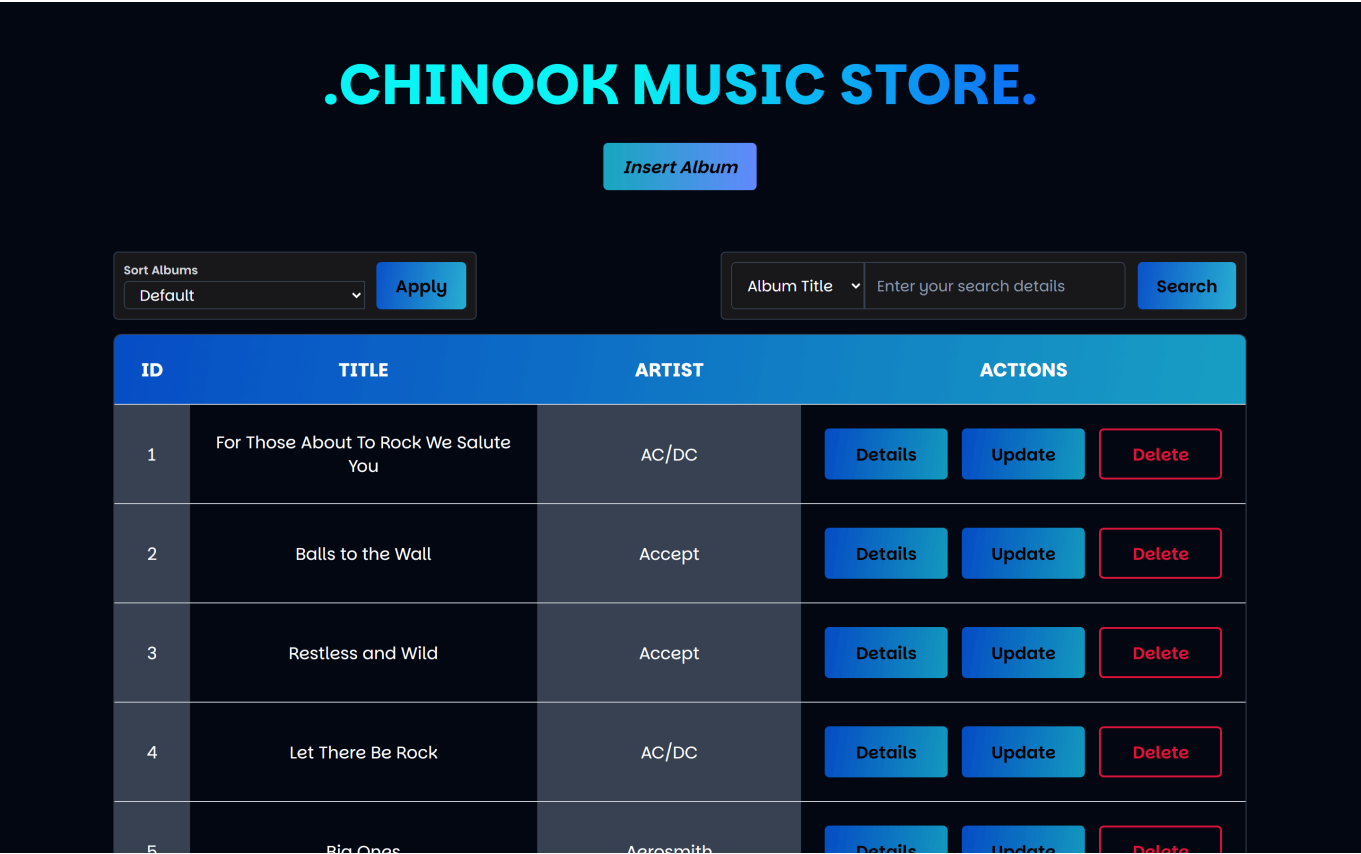

Tools and Technolgies

This project is built using the following tools and technologies:

- **HTML5** and **CSS3** for the structure and user interface,
- **JavaScript** for interaction and behaviour,
- **PHP** for the logic, and
- **MySQL** for database management.
